

## Message From The "White House."

The Brown Shoe Company, St. Louis, Mo., is gaining at the rate of \$1,750,000 per year.

Factories All Running Full.

The Brown Shoe Company's Headquarters in St. Louis is known as THE WHITE HOUSE. This beautiful building, with its gleaming, ivory-white exterior, is said to be the handsomest, largest and also the best equipped building for distributing shoes with the most economy and rapidity in America. This company says business is good, and reports a gain in orders for the month of July, over same month of 1907, of \$145,000, which is gaining in business at the rate of \$1,751,352.50 per year.

ITS ARMY OF SALES REPRESENTATIVES, consisting of one hundred and six men, in charge of territories, assembled at Headquarters from all over the United States during the first week in August, for the Salesmen's Semi-Annual Convention on the 10th inst., after which date the entire force quickly proceeded to the "firing line" on their respective fields, with the intention of making greater business conquests this season than ever before. In fact, the reports of these men are so generally optimistic as regards the crop outlook and business prospects that the company expects to largely exceed its JULY GAIN during each of the remaining five months of 1908. Look for their new gain records.

THIS IS THE HOUSE that started thirty years ago and led the way of successful shoe-making in St. Louis, which city, in this short period of history, has become one of the greatest shoe manufacturing centers in the world, and THE GREAT SHOE MARKET of the United States, now selling one-sixth of the entire shoe consumption.

THE BROWN SHOE COMPANY, during the past five years, has each year gained a Million Dollars over each preceding year, a record of uniform, rapid growth that stands alone in shoe history.

The shoes made by this company have the Star-Five-Star trademark, thus (+5\*) cut in shank of each shoe. This is the mark "that don't come off" and means BEST SHOES, and, therefore, interests every individual. You should find them in your city or town. Ask the dealer.

It's all in the posing. The fashionable idea now is to have Scott take the photo—in every instance a gem in point of pose, lighting and shading—and there is where most photographers fall down.

A Faithful Friend.  
"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. Ter. When a man has used a remedy for thirty-five years he knows its value and is competent to speak of it. For sale by all druggists.
